

BE A HALLELUJAH

(Julie Nevel / Rachel Barrentine)

VERSE 1A

See the harvest fields stretching far and wide
If we care enough, we can turn the tide
For the hungry soul with a heavy load
For the aching heart feeling all alone

VERSE 1B

We can offer hope, we can shine a light
We can share the joy, we have deep inside
As His hands and feet, we can walk by faith
Every chance we get, living out His grace

CHORUS

Let's be a hallelujah, rising to the Father
A sweet aroma, all around
Let's be a hallelujah, ev'ry son and daughter
And love will turn the world upside down
Our love will turn the world upside down

VERSE 2

Christ alive in us, changes everything
We belong to Him, children of the King
May the way we love be a grand display
A fragrant offering, a sacrifice of praise

BRIDGE

Our best philosophy, highest theology
Doesn't mean anything without love
So may our passion grow, to show the love we know
The living evidence of God in us
